

High-frequency transformer

EPC25 Series

Parameters/Dimensions:

EPC25 Type 1

Information:

Shape:EPC25

1 Power:.40W

2 Mounting Orientation: Horizontal

3 Size: 27.5 (W) \* 27.5(L) \*18 (H)

4 Effective Ae (mm2): 46.4

Note:

Bobbin type listed in the traditional style, transformer design parameters to customer needs or to inject prevail.

EPC series high-frequency transformer features:

Has a low thermal resistance, low attenuation, high power, wide frequency range, light weight, reasonable structure, easy surface mount, good shielding effect, etc., but somewhat less heat dissipation.

Uses:

Widely used in small and large power and shielding and electromagnetic compatibility requirements of transformers, such as precision instruments, PABX power modules, navigation equipment.
