

High-frequency transformer

EPC13 Series

Parameters/Dimensions:

EPC13 Type 1

- Information:
 Shape:EPC13
 1 Power:6W
 2 Mounting Orientation: Horizontal
 3 Size: 15 (W) * 15 (L) * 9 (H)
 4 Effective Ae (mm2): 12.5

EPC13 Type 2

- Information:
 Shape:EPC13
 1 Power:6W
 2 Mounting Orientation: Horizontal
 3 Size: 15 (W) * 15 (L) * 9 (H)
 4 Effective Ae (mm2): 12.5

Note:

Bobbin type listed in the traditional style, transformer design parameters to customer needs or to inject prevail.

EPC series high-frequency transformer features:

Has a low thermal resistance, low attenuation, high power, wide frequency range, light weight, reasonable structure, easy surface mount, good shielding effect, etc., but somewhat less heat dissipation.

Uses:

Widely used in small and large power and shielding and electromagnetic compatibility requirements of transformers, such as precision instruments, PABX power modules, navigation equipment.
