

High-frequency transformer
SMD EPC17 Series

Parameters/Dimensions:

SMD EPC17 Type 1

- Information:
- Shape: EPC17
 - 1 power:6W
 - 2 Mounting Orientation: Horizontal
 - 3 Size: 18.5(W) * 23(L) * 11 (H)
 - 4 Effective Ae (mm2): 22.8

Note:

Bobbin type listed in the traditional style, transformer design parameters to customer needs or to inject prevail.

EPC series high-frequency transformer features:

Has a low thermal resistance, low attenuation, high power, wide frequency range, light weight, reasonable structure, easy surface mount, good shielding effect, etc., but somewhat less heat dissipation

Uses:

Widely used in small and large power and shielding and electromagnetic compatibility requirements of transformers, such as precision instruments, PABX power modules, navigation equipment.
